

Is The Air You Breathe In Your Home Making You Sick?

Your duct system functions as the respiratory system of your home. When it becomes contaminated and congested, it should be cleaned so it can 'breathe' normally and efficiently.

Before Cleaning

After Cleaning

One in 6 people, & one in 3 families—suffer from allergies. Additionally, poor air quality can cause or trigger a number of lung diseases and respiratory conditions.

If you answer yes to any of the following questions, it may be time to have your air duct system professionally cleaned.

- ⇒ Does anyone in the house have allergies, asthma, or other breathing problems?
- ⇒ Does anyone in your family suffer from headaches, nasal congestion, or other sinus problems at night or in the morning?
- ⇒ Is there a smoker in the house?
- ⇒ Do you have dogs, cats, or other pets?
- ⇒ Do you notice "musty" or "stale" odors when the furnace runs?
- ⇒ Do you notice dust on your furniture shortly after cleaning?
- ⇒ Does it seem like there is not enough air flow coming from your vents?
- ⇒ Is your furnace equipped only with a standard throw-away fiberglass filter?

Even If You Don't Think You Need Air Duct Cleaning, Here Is Why You Should Call Me Now:

Fact:

Duct systems build up a tremendous amount of dust, mold, bacteria, viruses and pollen over time. Every time your blower fan turns on it distributes these harmful elements throughout your home.

Fact:

One out of six people who suffer from allergies do so because of the direct relationship to dust, bacteria and fungus in air duct systems (Total Health & Better Health Magazine).

Fact:

Studies have shown that two out of three indoor air quality problems involve the Heating and Ventilation and AC System.

Fact:

The levels of some hazardous pollutants in indoor air has been found to be up to 70 times greater than in outdoor air. (USEPA)

How do you really know what's in your air ducts?

Call us today and we will give you a **FREE** video inspection of your air vent system. We'll remove one of your cold air vent covers and insert our special camera lens into your air vent. You'll be able to see for yourself what's inside your system on our television monitor. Call us today!
